

# **ILLUSTRATION EXHIBITION “SCIENCE & ART IN THE MONTADO: VERTEBRATE FAUNA”**

## **Description:**

A collection of eight illustrations of vertebrate animals (in other words, with an internal skeleton) where we explore the high natural value of the montado and the services the fauna of this semi-natural ecosystem provide.

This exhibition intends to show the importance of knowing something ‘inside and out’. This is, to know all the relevant information, even that which is not evident at first glance. In this specific case, we are referencing the importance of knowing the species, understanding its habitat, and exploring the interaction between the two.

## **Technique used:**

India Ink pens

## **Author of the illustrations:**

Shirley Therese van der Horst

## **Coordination:**

Inês Roque

## **Production and contents:**

Ambios Portugal

## **Quantity, material, and board dimensions:**

All the illustrations are printed on PVC board (about 4mm thick). Each illustration is

accompanied by a legend. The exhibition is also accompanied by a roll-up.

Type of board	Illustration	Introductory text	Legend
Quantity	8	1	8
Dimension (height x width)	800x600 mm	800x600 mm	200x350 mm

Roll-up	
Quantity	1
Dimension (height x width)	2000x850 mm

### Mounting:

Mounted with double-sided Velcro tape, or hung with fishing line (there are two small holes in each of the top corners).

### Co-financed by
